Lighting Delivery Service Solutions

1. Manufacturer Direct Shipments

- ◆ Lighting Product is shipped direct from the manufacturer to the specified location.

2. STAGING | BASIC

- ◆ Lighting Product is shipped from the manufacturer to Revere Electric.
- ◆ Product is received and skids are broken down to confirm accurate quantities received from the manufacturers.
- ◆ All Product Boxes are inspected for visible damage. Damaged fixtures will be replaced and all freight claims will be filed. Replacement product orders will be expedited.
- ◆ Each fixture box will be properly labeled with the Fixture Type and Fixture Description.
- ◆ Each fixture skid will be given a large label including Customer Name, Job Name, and Fixture Types on the skid to clearly identify what is being delivered.
- ◆ Product to be delivered on multiple releases to specified location in the quantities requested by the customer. Revere requires 72-hour notice to ensure timely delivery.
- ◆ Photos of received/stored product will be provided upon request.
- ◆ Certificate of Insurance will be provided upon request.

3. STAGING | PLUS

- ◆ All Staging Services included in Option 2, plus:
- ◆ Unboxing fixtures and placing them on a Revere lighting cart. Fixture types that will be uncarted will be agreed upon by customer before project begins.
- ◆ Each lighting cart will be given a large label including Customer Name, Job Name, and Fixture Types on the cart to clearly identify what is being delivered.
- ◆ Lighting carts to be delivered on multiple releases to specified location in the quantities requested by the customer. Revere requires 72-hour notice to ensure timely delivery. Revere Lighting Product Manager to work with customer to return empty carts so they can be reused.

4. STAGING | PLUS MODIFICATIONS

- ◆ All Staging Services included in Option 2 & 3, plus:
- ◆ Fixture Modifications as agreed upon by customer and Revere prior to project starting.
Examples: Installing fixture whips, installing cord/plug sets, installing mounting hardware, and installing occupancy sensors
