SRX Equipment helps us control our inventory

SRX Equipment

Storeroom Logix equipment supplements SRX software to provide a complete and customizable Inventory and Asset Management Solution.

Lower Cost per Watt by reducing consumption, shrinkage, and stockouts. Know who, what, when, and where.

TRADITIONAL

AUTOMATED

CONTROLLED

SRX equipment connects seamlessly to SRX software

Labels
Scan on and off line for time savings and accuracy

Order buttons
Instant replenishment at the click of a button

Smart Shelves
Automate the audit and replenishment process
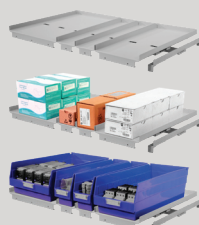

Vending Machines
Reduce usage and shrinkage

Lockers
Control access and trace usage

RFID
Automate inventory usage, levels, and replenishment

We really can save money with Storeroom Logix

Return on Investment

Storeroom Logix is obsessed with your inventory and helping you reduce cost. Your Return on Investment (ROI) will be high and your Payback will be quick when you invest in SRX.

Lower Cost per Watt by reducing stockouts, consumption, shrinkage, labor and carrying costs

Stockouts
Reduce stockouts by having the right part when needed

Consumption
Reduce consumption by controlling access and usage

Shrinkage
Reduce shrinkage with control, visibility and traceability

Labor
Reduce labor costs by automating manual processes

Carrying Costs
Reduce carrying costs by optimizing inventory levels
